- 37 window.
- 38 Run PIP behind beverage area. Patch existing. See detail.
- 39 Trim around beverage opening should be all one piece.
- 40 Trim between beverage opening and bar to be same and size.
- 41 Caulk work space in beverage counter and bar and size.
- 42 Provide and install stainless steel primer guards on bar
- 43 and beverage area. See detail.
- 44 All salad bars, buffet-type food service and other self
- 45 serve food shall be shielded with a stainless steel
- 46 trim between the food service's south and the food being
- 47 served by the proper positioning of the beverage guard.
- 48 G.C. to mount portion chart on food bar above main

29. Run new air line off existing. Extend line above ceiling.  
Drop line concealed under wall to valved termination at Knock-Down and knock-down locations. Use 1" PVC schedule 40.
30. Provide and install switch plate covering air line at 60' wall.
31. G.C. to cut opening through for beer box installation.  
G.C. to provide and install styrofoam box for beer box.  
Beer box installation complete. Provide and install stainless steel counter for unused dispenser opening. See detail.
32. Install Little Giant 5530C vertical pump for beer drain pan.  
Connect tubular 1/2" PVC. Run above ceiling and drop down connected to wall to nearest floor drain. Field verify with Project Manager.
33. G.C. to install existing glass chiller behind order counter prior to fitting counter in place. Field verify chiller is on site. If no chiller is available, install wheels of order counter refrigeration unit behind order counter prior to fitting counter in place. Legs to remain on unit.
34. G.C. to mount printer on plex on back of bottom of portion chart.
35. G.C. to mount sign on front of bar to bottom of Regimental Red.
36. Provide and install D.W.V. drain line run from salad pan to existing floor drain. Provide 1 1/2" gap between salad drain and floor drain.
37. All wood trim to be natural color.
38. All light bulbs will be re-installed each day.
39. Caulk all cracks and joints.
40. All outlet covers must be replaced each day.
41. Re-side and install weather stripping on exterior doors and door sweep on bottom of door.
42. All outer doors must be waxed, polished and tight fitting.
43. Replace cracked or missing tile before painting.
44. Replace any broken or missing quarry tile and quarry base.
45. Laminate all counters with Wilsonart D12-B Reginald Red
46. Laminate all counters with Natural Oak design (2" scored) on gift and gift counter.
47. Reference detail for counter.
48. Application.
49. Laminate nicked tables with Newmar B-902T. Butcher Block.
50. Verify with Project Manager.
51. Re-laminate two Thank You boxes with Wilsonart D30-F. Natural Almond.
52. Rework one Thank You box for hostess stand. See detail.
53. Remove dinner boxes, patch walls where dinners and switches are removed.
54. Re-install two (2) "KIDS APPRECIATE" signs in kiddie area.
55. Carpet Space Station steps.
56. Relocate monitor elsewhere where required.
57. Lay carpet front to back of building.
58. Provide and install 2 x 4 plex on ceiling tile over Mop.
59. Screw in 1/2" screw to grid.
60. Hang six (6) silk umbrellas randomly, not in pattern in kiddie area where lights does not shine on them.
61. Install Gal-tile ridge Gobi 8" x 8" with poly blend grout and penetrating grout. Seal entire coast to be Custom Building product. Antique White in color.
62. Provide new ceiling in sprinkler riser closet.
63. Coat corners of wall with gold on all half-wall.
64. Provide and install 1/2" x 1/2" x 14" metal angle brace at all half-wall openings. Cover both sides of half-wall with Marlite S407 buff. DO NOT PAINT UNLESS OTHERWISE NOTED ON EXPLANATIONS.
65. Project Manager will determine whether counters will be kept or disposed of by contractor.
66. Nework air ducts where required.
67. Allow saw cut floor for floor outlets.
68. Project Manager will determine whether to rework or fabricate new Thank You boxes if site visit is not made prior to construction.

1. Paint ceiling mounted speaker boxes P-1. Do not paint fabric.
2. Paint all walls, including vinyl.
3. Paint ceiling over stage P-11.
4. All tape on fixtures to be removed each day.
5. All tape on fixtures to be removed when painting.
6. Fixtures must be covered or removed when painting.
7. Provide plastic over tables, chairs, counters, games and plates.
8. First coat to be mix match.
9. Paint second coat latex or blue enamel.
10. Clean and paint all grille and diffusers.
11. Paint track lights, show lights, light bars and projectors to match ceiling.
12. Japan dry-bring agent in enamel.
13. Paint monitor shelves P-1. (Existing). New shelves natural.
14. Use quick drying mud for joints and texture.
15. Paint columns P-1.
16. All light bulbs will be reinstated each day.
17. All outlet covers must be replaced each day.
18. All outlet covers must be replaced and mural before installing.
19. Paint walls before painting mural and mural before installing.
20. Paint clean-up lights P-1.
21. Tape and bedding to be done by painter.

27. When painting ceiling projectors - remove diffusers, spray and adjacent area P-11. Paint diffusers and return ducts and adjacent area P-11.
28. Paint exterior electrical panels and conduits and goosenecks.
29. Piping.
30. Paint edges of the sides of the ball crank steps P-1.
31. Paint floor for stage design in front of stage.

**SPECIFICATIONS**  
**Product Name:** Glidden Vinyl Wallcovering Type I\* - Class A  
**Product Description:** Decorative vinyl-coated and/or laminated to cotton or cotton polyester fabric. This product is not designed for exterior use.

**TECHNICAL DATA:**  
SEE PHYSICAL PROPERTIES ON OTHER SIDE. FOR DETAILED INFORMATION, SEE PHYSICAL PROPERTIES FOR EACH PATTERN LISTED ALPHABETICALLY ON PREPARE PAGES.

**SURFACE PREPARATION**  
**GENERAL**—Remove all dirt, grease, old adhesive, loose paint and plaster from surface. Fill all holes and indentations with putty or compound. Sand smooth.

**Unpainted Drywall**—To ensure a uniform surface for proper adhesion and for easy removal of the vinyl for future redecorating, prime walls with Glidden ULTRA-HIDE Oil-Based Wall-covering Primer/Sealer No. 64897 according to label directions. For one-step installation of fabric-backed vinyl, use Glidden ULTRA-HIDE Strippable Wall-covering Paste.

**Unpainted Plaster**—On old plaster, remove all surface chalk. If the surface is extremely smooth, scuff sand and wipe clean. New plaster must have a 5% or less moisture content. Check with a moisture meter. If the surface is salt/alkali, prime with a salt/alkali-resistant primer.

**Concrete Unit Masonry and Poured Concrete**—Surface must be smooth and dust free. Prime with Glidden ULTRA-HIDE Oil Based Wallcovering Primer No. 64897.

**Painted Surfaces**—Previously painted surfaces should be sound and free of loose paint or scale. On glossy painted surfaces, all painted surfaces should be checked for pigment bleed-through. Other surfaces—for surfaces such as metal, glass, tile or other vinyl, prime with Gildex ULTR

**APPLICATION** - Glidden ULTRA-HIDE Wallcovering Adheses shall be used in strict accordance with the instructions on the label for correct pattern and color.

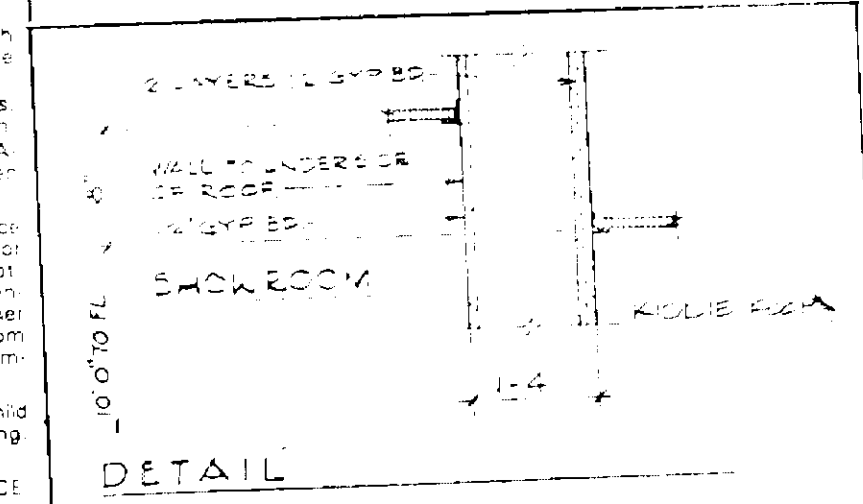

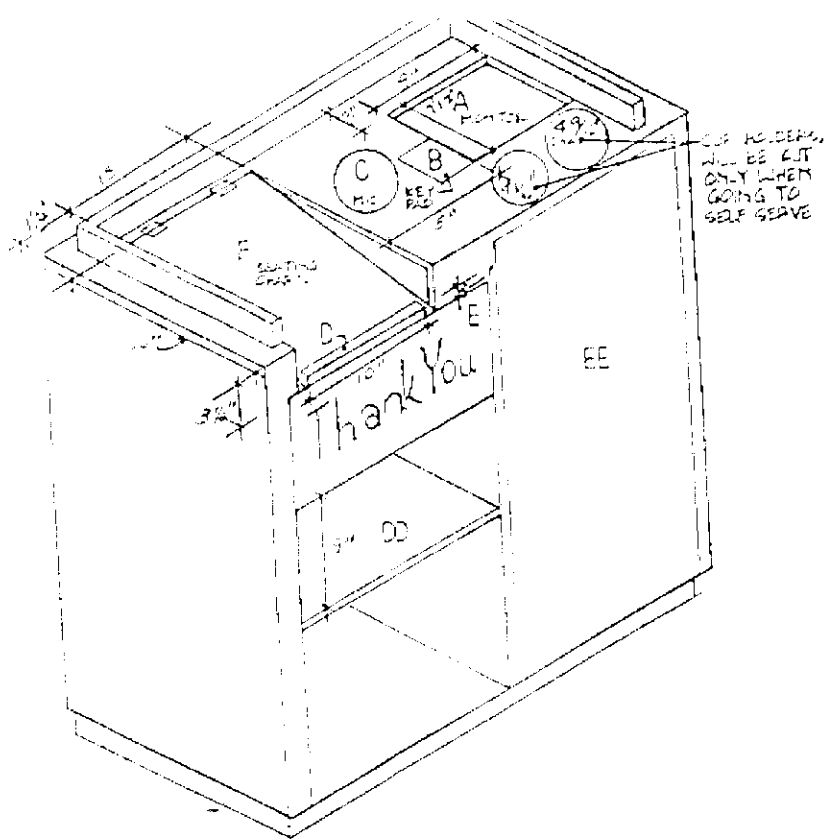

with manufacturer's written instructions. Measure the covering before cutting. Hang panels in the exact order that they are cut from bolt. Reverse top and bottom of every other strip when hanging solid colors and non-matching textures. Double cut to sure tight seams. Areas above doors and windows should be hung in sequence with the other panels. All panels must be the same color! Remove excess adhesive.

**MAINTENANCE**—Periodic cleaning of the vinyl at least once a year, is recommended. Use a mild detergent and water. Do not use harsh detergents or abrasive materials. After cleaning, the wallcovering surface immediately after application of each panel. Notify the Glidden supplier immediately if defective material is discovered.

**TECHNICAL SERVICES**—FOR 5" X 7" SAMPLES AND SPECIFIC TECHNICAL ASSISTANCE
